

EFIKCOIN (EFC)

Life Empowerment for Sustainable Human Lives

Whitepaper v1.0 — June 2026
Built in Truth, Love, and Peace

Abstract

EFIKCOIN (EFC) is a community-driven BEP-20 utility token on BNB Smart Chain created to empower people, not speculation. Founded in 2025 in Nigeria, EFIKCOIN addresses a fundamental gap: technology that directly supports sustainable livelihoods, education, and community growth. With a fixed supply of 1,000,000,000 EFC, transparent on-chain staking, and decentralized rewards, EFIKCOIN provides a simple tool for anyone to participate in a global economy of empowerment.

1. Vision & Mission

Vision: A world where blockchain serves humanity — where every transaction contributes to life empowerment.

Mission: To provide accessible, honest financial tools that foster sustainable human lives through truth, love of Christ, and peace.

2. The Problem

Millions lack access to fair financial tools. Existing tokens prioritize profit over people, with complex systems and hidden fees. EFIKCOIN simplifies participation and returns value directly to holders through staking and community rewards.

3. Token Details

Name	EFIKCOIN
Symbol	EFC

Network	BNB Smart Chain (BEP-20)
Contract	0x677Ce9CBa67f7484ea951a12897CE780cFd8fED1
Decimals	18
Total Supply	1,000,000,000 EFC (fixed)
Pair	0xa1DD6C528882Dc19EcCbC967F50bBC121A29630e (PancakeSwap)

4. Core Features

- **Staking (8% APY):** Holders can stake EFC directly in the dApp to earn rewards, encouraging long-term participation.
- **Claim Rewards:** Transparent on-chain reward distribution.
- **Low-Fee Transfers:** Built on BSC for fast, affordable transactions.
- **Airdrop System:** Community growth through verified distributions.
- **Decentralized Ownership:** No mint function after deployment; supply is fixed.

5. Tokenomics

Total Supply: 1,000,000,000 EFC

Allocation	Percentage	Purpose
Community & Ecosystem	60%	Staking rewards, airdrops, empowerment programs
Liquidity	20%	PancakeSwap pair locked
Development	10%	dApp, security audits, IPFS hosting
Founder Reserve	10%	Long-term sustainability, vested

6. Roadmap

Phase 1 (2025): Contract deployment, PancakeSwap listing, community formation.

Phase 2 (2026 Q2): GitHub Pages dApp, BscScan verification, Trust Wallet logo, whitepaper release.

Phase 3 (2026 Q3): Mobile wallet integration, educational programs in Nigeria, staking dashboard v2.

Phase 4 (2026 Q4): Partnerships for real-world empowerment, DAO governance launch.

7. Technology

Smart Contract: Verified on BscScan. IPFS Logo:

ipfs://bafybeihrzyodihyp5met2hs32ppj37qlowuxarvs2InIrgujgrlwxc7fwe. dApp: Open-source HTML/JS hosted on GitHub Pages for full transparency.

8. Values

Truth — all code open-source. Love — built to serve, not exploit. Peace — no hype, no false promises. Human Benefit — every feature designed for sustainable lives.

9. Disclaimer

EFIKCOIN (EFC) is a utility token for community empowerment. It is not an investment, security, or financial product. No profit is guaranteed. Staking APY is subject to protocol conditions and may change. Users participate at their own risk. Always do your own research.
